

Checklist for Import Licence Application

1. Application made in standard application form
2. Third party accredited laboratory report
3. Bill of lading
4. Commercial Invoice

NB: Application Fees \$0

Third Party or independent Accredited Laboratory Test Report

A. Steel Bar

The test shall include the following specification.

1. Chemical Composition
2. Yield stress (Re) and tensile strength
3. Uniform elongation (Agt)
4. Bending and rebending properties
5. Mass per unit length
6. Geometric properties

B. Mesh

i. Raw Materials of Mesh (Rod and hard drawn wire)

The test shall include the following specification.

1. Chemical Composition
2. Yield stress (Re) and tensile strength
3. Uniform elongation (Agt)
4. Mass per unit length

ii. Final Product (Welded Mesh)

The test shall include the following specification.

1. Chemical Composition
2. Yield stress (Re) and tensile strength
3. Uniform elongation (Agt)
4. Weld shear strength
5. Mass per unit length
